

*Sea Grant is ...*

**A** Federal-State matching funds program providing science-based information to people making and influencing decisions for the wise development, management and use of our coastal resources—now and in the future.

**Our extension specialists work with a variety of audiences along New York's Hudson Valley, New York City and Long Island coasts on these issues:**

- Fostering coastal businesses and sustainable coastal development.
- Protecting, enhancing and restoring coastal habitats.
- Improving the quality, safety and sustainability of seafood products.
- Preparing for and responding to coastal hazards and climate change.
- Maintaining marine fisheries.
- Assessing and enhancing coastal water quality.
- Evaluating the impacts of point and non-point source contaminants.
- Providing K-12 educators with Sea Grant resources.

**Sea Grant Extension educational methods include:**

- Fact sheets, periodicals, books, videos, and web sites.
- Seminars, training programs, and demonstration projects.
- Engaging and informing the general public, government officials, coastal managers, scientists, industry, the media and schools.

*New York Sea Grant provides equal opportunities in employment and programs.*

**Sea Grant Colleges assist those using our Great Lakes and marine resources, just as Land Grant colleges assist those using land resources.**

**New York Sea Grant is a partnership between the State University of New York and Cornell University.**

**Sea Grant Extension activities are carried out as part of Cornell Cooperative Extension.**

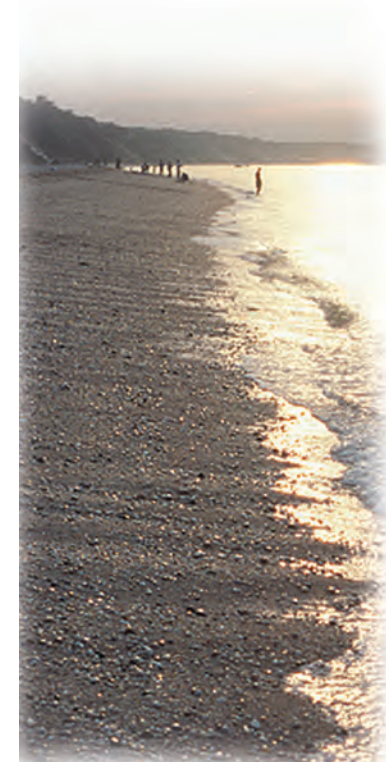

**Funds for this work come from the two universities, New York State, the National Oceanic and Atmospheric Administration of the U.S. Department of Commerce, private industry, and communities throughout New York.**
